

UWW RANKING SERIES COMPETITION RULES

1. Competition Format

The competitions take place by direct elimination system with an ideal number of wrestlers, i.e. 4, 8, 16, 32, 64, etc. If there is no ideal number of wrestlers in a category, qualification matches will take place.

Pairing is made in the order of the numbers drawn at random. All wrestlers who lost against both finalists will have repechage matches. There are two separated groups of repechage: one group of wrestlers who lost against the first finalist, and another group of wrestlers who lost against the second finalist. The repechage matches begin with wrestlers who lost in the first round including in matches to obtain the ideal number against one of the two finalists up to the losers in the semi-finals by direct elimination. The winners of the two repechage groups will receive each the bronze medal.

Each weight category event lasts one or two days, depending the number of entries. If it is a two days event, the Qualification & Eliminations rounds are organized the first day and repechages and Finals the second day. The draw takes place the day before the beginning of the category concerned. If the one-day format event is used, the draw can be done during the weigh-in, the morning of the competition.

The medical control and the weigh-in will be held the morning of the concerned weight category. If a two days format is used, the qualified athletes for the finals and repechages will be also weigh-in the second morning of the concerned weight category. **No more weight tolerance** will be allowed for this second weigh-in. During a UWW Select Ranking events (Tournaments) organized in one day, no more weight tolerance can be allowed by the Organizer. This Information will be published in the specific Regulations of the concerned event.

If there are less than 6 wrestlers in a weight category, the Nordic round will take place (each wrestler against each wrestler). In that case, the last round will be organized the second day.

If there are 6 or 7 athletes in a weight category, a two pools system will be used (please refer to the Wrestling Rules).

For the UWW Select Ranking Events, each National Federation will be able to enter a maximum of **three wrestlers** per weight category. The organizer can register 5 athletes per weight category and organize a qualification rounds between them in order to have only 3 wrestlers in the final bracket. These two extra wrestlers won't be count in the points' calculation at the end of the Event.
